

BigCatOs Privacy Policy

Simply said: *BigCatOs does not collect or share with third parties your personal information.*

There is no server backend to save cookies, device data, browsing habits, analytics or anything else. These are simple Apps, written for a single person's private use that do not communicate off-device except in cases where you take explicit action.

App Settings are saved on-device and will be captured by an iOS backup; however, there is no private information in your Settings. You are fully responsible for any information that you explicitly Share from an App.
